EXPERIENCE

2021-Present **IN TIME TEC**

Jaipur, Rajasthan

Full Stack Developer (React-Node)

- Managed cross-functional team of 10 in 2 locations (Jaipur and Bangalore), ranging from Quality Assurance to Software developer, and collaborated with business development, data analysis and data mining.
- Interfaced with clients to gather business requirements (representing 10% of company revenue).
- Designed training and peer-mentoring programs for the incoming class; reduced onboarding time for new hires by 50%.
- Conducted system analysis and finalized technical/functional specifications, low-level design documents, use cases, design documents, and build scripts.
- Contributed to the design, development, testing, troubleshooting, and debugging of software.
- Ensured smooth implementation and testing at client locations and ensured the technical integrity of project deliverables.

PROJECTS

Jaipur, Rajasthan

HP GAIA (Software Engineer - React)

- Developed a web-based HP Sustainability Calculators application to reduce environmental impact and costs for computing and printing products.
- Optimized performance across various web-capable devices and browsers upto 90%.
- Utilized React.js and Redux Toolkit to create user-facing features.
- Built reusable components and front-end libraries for future use.

HP Sales Central (Software Engineer - React)

- Access the latest HP product information, fresh sales, and marketing assets, and helpful tools; from customizable presentation materials to guided product selections.
- Analyzed data from 2500 monthly active users and used outputs to guide marketing and product strategies.

2021-2021 **MEMORRES DIGITAL PRIVATE LIMITED**

Jaipur, Rajasthan

Creamaster Tool - Associate Software Engineer (Node)

- Worked as a Software Developer and developed a Dairy Application Admin Portal using React JS and NodeJS.
- Developed an admin and inventory upload management panel using React JS, enabling users to upload machinery for sale and allowing admins to manage products with rights to freeze, export, and mark products as sold.
- Created a customer panel to track monthly, weekly, and yearly expenses, as well as monitor certifications.
- Displayed expense statistics on graphs and tracked expense due dates and certification expirations.
